

VOLVO
THE ALL NEW C70 2006

VOLVO
for life

"Photography for this brochure was taken during Spring 2005 capturing the beauty, diversity and culture of New Orleans and surrounding areas. Presented with respect and honor to the citizens of this great city".

Uncover your true personality.

Share the beauty that surrounds you.

Capture the day while it's still full of promise.

The retractable hardtop that comfortably seats four adults.

Enjoy nature's gifts.

Rain falls gratuitously on leafy
landscape and rosy cheeks.

Quench your thirst.

From top down to hard top up
in less than 30 seconds.

Discover the city without
a roof over your head.
Exotic spices dance on air,
beneath the blanket of a
burgundy sky.

Dynaudio Sound System with
Dolby Surround Pro Logic[®] II.

Don't be stuck indoors.

A citrus scent, time well spent,
homeward bound in a heartbeat.

Wake up to the all new Volvo C70.

VERSATILITY

Opening or closing in thirty seconds, the retractable hardtop repels rain, snow and dirt. Whenever required, the insulated steel roof effectively shields occupants from noise, baking hot sun and perhaps the odd piercing look. You can treat the Volvo C70 like any other car. Pack it for the weekend, park it outdoors or just wash it and leave it.

PERFORMANCE

The Volvo C70 has a turbocharged five-cylinder engine that generates 218 hp and 236 ft./lb of torque. The exceptionally stiff body, electro-hydraulic power steering and Dynamic Stability Traction Control (DSTC) enhance the road feel while the six-speed manual transmission adds to the driving experience. Options include a five-speed Geartronic automatic transmission and the Volvo Navigation System.

SAFETY

The new Volvo C70 incorporates a door-mounted inflatable curtain (IC) system. The system is designed to help provide lateral protection to occupants in rollover accidents and side impacts. The IC is engineered to remain upright to help protect the occupants. It is designed to deflate slowly offering additional protection in a roll-over. Additional Volvo safety systems include Whiplash Protection System (WHIPS), Intelligent Driver-Information System (IDIS), Emergency Braking Assistance (EBA) and Rollover Protection System (ROPS).

SECURITY

The retractable hardtop is a security feature in itself. It helps guard against "cut-and-grab" type thefts that are possible with a soft top. In total there are eight compartments throughout the interior where personal items can be stored. Five lock automatically with the car when you leave it, and stay locked even when the parking valet has your key. This feature is called Private Locking. Door locks are certified by The Swedish Theft Prevention Association – an international authority on crime prevention. If you leave the car with its top down you can activate the double-locking function to stop an intruder from unlocking it from the inside.

CONVENIENCE

With the top up there are 12.8 cubic feet of loading space, more than enough for two suitcases. When the top's down there's still enough space for a suitcase or golf bag – press a button and the opening expands for easier packing. A loading hatch helps accommodate awkward items such as snowboards or skis.

ENTERTAINMENT

The Volvo C70 offers extraordinary musical performance. Opt for the Dynaudio Sound System with Dolby Surround Pro Logic® II and digital sound processor to optimise the musical source for each passenger's experience. Fourteen loudspeakers from the Danish specialist, Dynaudio, are positioned throughout the interior, and are powered by 910 watts of pure listening enjoyment.

The Dolby and Pro Logic trademarks are the property of Dolby Laboratories.

COMFORT

For front seat passengers the Volvo C70 is the convertible that provides most leg and headroom in its class. For passengers riding in the back, best-in-class rear seats provide a level of comfort not unlike that of a Volvo sedan. Designed in collaboration with ergonomics specialists, each seat provides its occupant with convenient access to a cup holder or a lockable storage compartment.

ENVIRONMENTAL CARE

The Volvo C70 is quite a clean vehicle. Not surprisingly, it meets the toughest emission demands such as those of California's ULEV II.

TECHNICAL SPECIFICATIONS

VOLVO C70 T5

Engine: Five-cylinder 2.5-litre turbo-charged
 Max power output: 218 hp @ 5000 rpm
 Max torque: 236 ft./lb at 1500-4800 rpm
