

VOLVO POLICE CAR RANGE

ONE OF THE WORLD'S SAFEST WORKPLACES

VOLVO V70 POLICE CAR Front-wheel drive. Alternative engines: five-cylinder 250-bhp turbo petrol engine or a five-cylinder 163-bhp direct-injection turbodiesel. Five-speed manual gearbox or five-speed adaptive automatic transmission (not available with the diesel engine). Reinforced police-specification chassis with DSTC anti-skid system and automatic height control.

The Volvo cars have what it takes to make a world-class police car with superior crash safety, dynamic ride and road holding with high levels of comfort.

All factory installed equipment is crash tested and has been designed to stay firmly in place in the event of a collision.

The Volvo Police cars are individually tailored at the Volvo Car Special Vehicles' workshop in Goteborg ready for final commissioning in the UK according to the customer's build specification.

VOLVO CROSS COUNTRY POLICE CAR Four-wheel drive (AWD/TRACS) and greater ground clearance. Five-cylinder 200-bhp turbo petrol engine. Five-speed manual gearbox or five-speed adaptive automatic transmission. Automatic height control.

VOLVO S60 POLICE CAR Front-wheel drive. Alternative engines: five-cylinder 250-bhp turbo petrol engine or a five-cylinder 163-bhp direct-injection turbodiesel. Five-speed manual gearbox or five-speed adaptive automatic transmission (not available with the diesel engine). Sport chassis with DSTC anti-skid system and automatic height control.

VOLVO S40 AND V40 POLICE CAR Front-wheel drive. Alternative engines: four-cylinder 136-bhp petrol engine, turbocharged 165-bhp or 200-bhp petrol engines or a 115-bhp direct-injection turbodiesel. Five-speed manual gearbox or five-speed adaptive automatic transmission. Chassis with DSA anti-skid system and automatic height control.

For further information about the range of Volvo models, see the separate product brochures. Note! Volvo retains the right to alter specifications and models at any time without prior notification.

OPTIONS, POLICE SPECIFICATION

VOLVO S40/V40

- Extra set of keys, 2 keys
- Police radio cables
- Baton and flashlight holder
- Solar film, B-post and rearwards
- Factory-fitted wiring, police lightbar
- Blue flashing lamps in wind-screen (x2)
- Vinyl cover, rear seat
- Storage system
- Towbar, fixed or removable

All Volvo Police Cars can be equipped with armour protection (up to European level B4) to meet different requirements. The Volvo Police Car can also be supplemented with a limited number of options from the standard Volvo range.

POLICE-SPECIFICATION WIRING The factory-fitted Police electrical wiring is added to aid the installation of Police equipment without disturbing the existing wiring. The Multiplex electrical wiring system in the Volvo V70, Cross Country and S60 is based on digital transmission to handle a large number of electrical functions.

THE VERSATILE HIGH-PERFORMA

ACTIVE CHASSIS SYSTEM

The active chassis system increases driving stability in all road conditions. Moreover, the system in the Volvo V70 and S60 also automatically counteracts a skid as it starts. (DSA or DSTC is standard in the Volvo Police Cars with front-wheel drive.)

ADDITIONAL EXTERNAL REAR VIEW MIRROR (Option)

BLUE FLASHING LAMPS IN WINDSCREEN (Option)

DOG COMPARTMENT Divided into two sections, with excellent ventilation. The compartments are designed with consideration for the dogs' safety and comfort. The dogs can be released either to the rear or via electrically operated hatches forward onto the rear seat. The durable interior trim is easy to keep clean. (Optional for the Volvo V70 and Cross Country.)

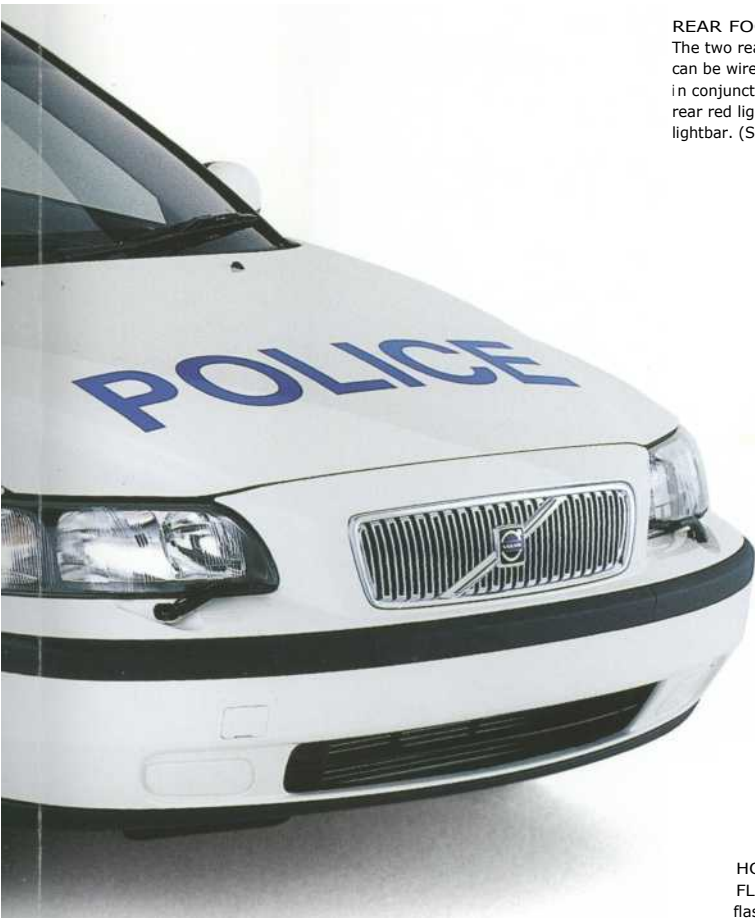

PERFORMANCE POLICE CAR

SAFETY GRILLE Steel safety grille behind the rear seat provides protection from load penetration from the luggage compartment, for example under severe braking. (Standard in the Volvo V70, Cross Country and V40.)

STORAGE SYSTEM The storage system is easily modified to suit varying needs. (Option)

REAR FOGLAMP The two rear fog lamps can be wired to operate in conjunction with the rear red lights in the lightbar. (Standard)

HOLDER FOR BATON AND FLASHLIGHT The baton and flashlight holder is reached no matter how much the seat is adjusted fore-aft. (Option)

Extra powerful ABS/EBD brakes, reinforced police-specification chassis and Volvo's advanced anti-spin and anti-skid systems provide world class driving safety under all conditions.

The Tracker and VASCAR - or a police radio - are within easy reach in the additional panel on top of the instrument panel. (Only in the Volvo V70, Cross Country and S60.)

The centre console is specially modified for various DIN radio installations.

Volvo's intelligent all-wheel drive system gives a unique combination of dynamic stability and the ability to get around on all road surfaces. (Only in the AWD and Cross Country variants.)

STANDARD EQUIPMENT, POLICE SPECIFICATION

VOLVO V70, CROSS COUNTRY AND VOLVO S60

- Reinforced police chassis
- Automatic height control
- DSTC (Dynamic Stability and Traction Control) anti-spin/anti-skid system
