

1996 Volvo 850 GLE Estate

£1295.00

This Volvo 850 is one of the very last 850 estates before it was face lifted into what we now know as the V70 Classic and is essentially a 1 owner vehicle. The Volvo was originally supplied overseas in I believe Germany to a member of Her Majesty's Armed Forces. The Volvo was then imported back to England virtually straight away and judging by its service history spent the first half of its life in the north of England area before moving further south. The Volvo has always been maintained regardless of cost and passed only onto its second owner in May of last year.

Although the Volvo has covered 180,000 miles in its 13 year life it has a full and extensive service history with 17 stamps firstly at Volvo main dealers, secondly a Volvo Specialist and lastly a local independent, backed up by all the original invoices. The Volvo has just had a full service carried out in our on site workshop which included the replacement of front and

rear brake pads. The Volvo has also just had its cam belt, cam belt tensioner and cam belt idler replaced using genuine Volvo parts.

Condition wise the Volvo is in exceptionally good condition given its age and mileage as can be seen in the photographs. Externally there are a few very minor dents, blemishes and stone chips, these have all been touched up where possible and they do not detract from the overall look or usability of the car. Internally the upholstery is in excellent condition with no rips or tears, as are the carpets which have been protected from new with genuine rubber Volvo floor mats and a load liner. All the plastic trim is in excellent condition and everything is present and correct including the original tool kit, hand books etc. The Volvo has been tastefully modified with the addition of later V70 wheel trims, V70 clear front side repeaters and 940 rear wing mouldings.

Additional extras include, 144bhp fuel injected 5 cylinder engine, 5 speed manual gearbox; 4x electric windows, electric heated mirrors, original radio cassette; air conditioning; central locking with 2 keys, drivers air bag, power steering, anti-lock brakes, the legendary 'SIPS' (side impact protection system), immobiliser, load cover, tailored rubber mats, rear booster seat, 3 point rear seatbelts, front mud flaps, trip computer, tow bar with single electrics and load liner.

For the full asking price the vehicle will come with a new 12 month M.O.T and a 6 month Silver Plus Warranty (details available on request). This vehicle is not affected by the emission related tax premiums and will currently cost £185.00 a year to tax.

Facts and figures

General

Production	1 Apr 1993 to 1 Jul 1997	Weight	1412 kg
Length	4648 mm	Fuel Delivery	Injection
Width	1752 mm	Transmission	Manual
